2011 COLUMBUS DAY PARADE

This year's Columbus Day Parade came together under sunny skies to turn 5th Avenue into a true celebration of Italian-American heritage. Beginning with a wonderful pre-parade breakfast, members and their families gathered for a day filled with food, drinks, and fun as we marched up New York City's 5th Avenue as a visible show of the FDNY's presence and pride. The Fire Department membership was led by our president, Keith Tanico, Commissioner Cassano, and Columbia Association Parade Chairman, Phil LaRocco, along with other officers, members, and friends of the Association, including the Fire Riders. We were joined by a contingent of Italian firefighters who traveled to NYC to participate in the parade, as well as champion gondoliers and an authentic Italian gondola, coordinated by the International Columbia Association. The excitement and celebration continued in full force at the after-party at a popular NYC bar and lounge, where food and drinks were definitely not in short supply. Toasts, cheers, and lots of laughs were shared and a great time was had by all who attended. Bigger and better with every passing year, many who joined us for the first time this year have already marked their calendars for the next one. We invite you to join us for this memorable day next October 2012 for what promises to be a fun-filled and exciting day that is not to be missed.

Cigar Night October 2011

We held our annual cigar night at Club Macanudo, which is becoming a regular fall classic in itself. Over 90 members and friends joined us for some fine cigars, good food and plenty of cocktails. Once again our gracious host, Mauricio Cordoba, went above and beyond his call of duty, donating many wonderful gifts for us to raffle off. Also, I think this was planned, but our event coincided with his birthday, AGAIN. Grace had picked up a nice big cake and we all celebrated with him. I would also like to thank Victoria McKee from General Cigar and our good friend Al (Butch) Guzzi from the Long Branch F.D. for supporting our event. I would also like to thank the members of the board who helped out all night long. Well if you missed this one, we will be having more of these events in the future, so please keep your eyes open and come join us for a great night out in the City.

THREE QUARTERS & SPAN OF TIME

A firefighter who sustains a serious injury early on but wishes to continue working, advance their respective career and provide the fullest income for their families, may undergo legal challenges in establishing accident disability in a review conducted many years after that injury, especially if long periods of time elapse without documented steady and continuous medical care and prescription therapy.

The Medical Board's denial in these types of cases can be based upon their perception that the member's injury became progressively more painful and disabling, that the original injury was resolved through surgery; and or that the disability became disabling gradually through time, as a result of a degenerative or progressive process. Accordingly, the Medical Board may conclude the disability is no longer the result of the initial injury.

The Administrative Code requires that a disabling injury be the consequence of an accident, not the occurrence of an accident and the development of the disability over the passage of time, while the member is on full duty and not undergoing medical treatment.

Ultimately, injured members who sustain severe injuries are faced with a dilemma, retire on a severe injury at the time they are injured and forgo career opportunity, or continue working but diminish the chances of an accident disability retirement later on.

There are some measures a member can take to increase the likelihood that an injury will be treated as disabling, even if the member is returned to full-duty following an accidental injury. Those measures may include documenting steady and continuous medical treatment and medication prescribed for their injury. In cases where a fire officer is injured but is able to establish that the injury was continuously causing him or her to suffer, the Medical Board may accept the original accidental injury as the basis for awarding three-quarters. The prudent officer will steadily and continuously document their suffering by treating and medicating their injury. Of course, steady and continuous treatment does not guarantee that you will receive three-quarters based upon an old injury, but it does improve your chances. Other factors, including the length of time one is on full-duty, instances of less than full duty, medical leave, later injuries as well as your job assignment can also affect your chances.

The 2011 Golf Outing

A great time was had by all. This year the weather was perfect, the course like a big sponge mud bowl. Happy hour was also a big success with everyone getting just the right amount of happy. There were lots of great giveaways and many laughs. We're looking forward to next year and maybe seeing some new faces.

*Thanks to all that came and
have a merry Christmas
and happy New Year!*
